

Intro to JavaScript Arrays Lab

About

This lab is designed for beginner to intermediate learners and focuses on providing hands-on practice with arrays in JavaScript. It aims to build a foundational understanding of this essential data type through a series of exercises and challenges. By the end of the lab, participants will be comfortable creating, manipulating, and iterating through arrays, setting a strong foundation for more advanced programming concepts. Ideal for learners new to arrays, this lab serves as both an introduction and a skill-building opportunity.
